---

To all Health Care Policy Committee members:

Please take note that we are against any Health Care Exchange in Michigan. We do not believe that it is economically reasonable, nor can it be efficiently implemented. Consider the vast amount of fraud that has already occurred and is still being uncovered after decades of Medicare and Medicaid. We simple cannot afford this. What we need is for the economy to turn around and recover, making it possible for more people to be employed and earn insurance.

We do not want government bureaucrats consulting manuals to make decisions concerning our health care. We believe that decision belongs with us, our doctor, and our chosen form of insurance.

Please enter our email into the record. Thank you for hearing us.
